Middletown, CT 06457-5712

Re: RCRA Closure Plan  
Montville Station, EPA ID. No. CTD049181654  
74 Lathrop Rd., Montville, CT

Dear Mr. Keith:

Staff of the Remediation Division of the Bureau of Water Protection and Land Reuse of the Connecticut Department of Environmental Protection (Department) have reviewed the closure plan for the RCRA container storage area at the NRG Montville Station, located at 74 Lathrop Road in Montville. The Certification was prepared by Shaw Environmental & Infrastructure, Inc. The following documents comprise the closure plan:

1. "Remedial Action Plan- AOC 1, AOC5, AOC 9 and AOC14, Montville Generating Station, Montville, Connecticut", dated June 17, 2009,
2. "Addendum to Remedial Action Plan - AOC 1, AOC5, AOC 9 and AOC14, Closure Plan Part 1 CSA Montville Generating Station, Montville, Connecticut", dated November 23, 2009, and
3. "Closure Plan Part 2 and Part 3 - Container Storage Area, Addendum to Remedial Action Plan - AOC 1, AOC 5, AOC 9 and AOC 14, Montville Generating Station, Montville, Connecticut, dated May 27, 2010."

Public notice for the plan appeared in the *New London Day* on December 26, 2010. The plan was submitted in accordance with section 22a-449(c)-105 of Connecticut's Hazardous Waste Management Regulations. These regulations apply to owners or operators of RCRA-regulated units that operated under interim status and are now closing.

The plan is hereby approved.

The Commissioner of the CTDEP may authorize changes to the approved closure plan upon written request pursuant to section 22a-449(c)-105(a) of the Regulations of Connecticut State Agencies, incorporating 40 CFR section 265.112(c).

Nothing in this approval shall affect the Commissioner's authority to institute any proceeding to prevent or abate pollution, to recover costs and natural resource damages, and to impose penalties for violations of law. If at any time the Commissioner determines that the approved actions have not fully characterized the extent and degree of pollution or have not successfully abated or prevented pollution, the Commissioner may institute any proceeding to require further investigation, or further action to prevent or abate pollution. This approval relates only to pollution or contamination identified in the above referenced plan.

This Approval does not relieve the facility of the obligation to obtain any other authorizations as may be required by other provisions of the Connecticut General Statutes, Regulations of Connecticut State Agencies, Code of Federal Regulations, Federal Statutes, or, to the extent local law is consistent with this approval, local law.

If you have any questions, please call Mark Lewis of my staff at (860) 424-3768.

Sincerely,

Patrick Bowe, Director  
Remediation Division  
Bureau of Water Protection and Land Reuse

PB:MRL
